What's FazaFam Pre-K?

A family strengthening program designed for caregivers and kids 2-4yrs.

Dance & Bmore partners with early childhood learning communities to provide family fun days with music, movement, and play that stimulate the imagination and strengthen relationships while building a sense of community and well being.

FazaFam Fun Days are designed to:

1. Develop healthy social and emotional interactions and communication
2. Learn practical skills for healthy habits at home
3. Provide caregivers tools that promote academic success
4. Provide families free creative resources for life long learning

Each class is packed with FazaFam music Baltimore families know and love, along with lyrics great for learning and developmentally appropriate games families can play at home.

Director **CJay Philip** created the FazaFam program with the belief that, **meeting the needs of the whole family** is key to fostering positive change and lasting memories that establish a strong foundation for a healthy start. FazaFam fun and learning supports families for the first 4 years and beyond.

Family Dance
Jam!**

Research shows:

Engaging parents as key partners in children's development during the preschool years is particularly important because of the positive impact that parenting practices have on child school readiness, reducing child behavior problems, enhancing child social skills, and promoting academic success. (Pennsylvania State University, 2017)

When families are attentive, warm, cooperative, and use clear communication, children are shown "positive interpersonal behavior" that lays a foundation for an emotionally safe environment (Ackerman, Kashy, Donnellan, 2012).

Parents set a positive example of health for their children and even reduce stress and later life issues in their families (Saunders, 2012).

All the ingredients for a great start...

Language
&
Literacy

Social
Foundations

Fine Arts

Physical
Education

Health &
Wellness

...and even more to look forward to!
